Quick demo

What are our next steps

Reflection

Questions

QUICK REVIEW SPRINT A

- Documents version 1
- Prototype of dashboard agreed by PO
- Some endpoints in API backend.

THE GOAL

Sending data from the backend to the frontend.

Setting up a database for storing the data

DID WE ACHIEVE IT

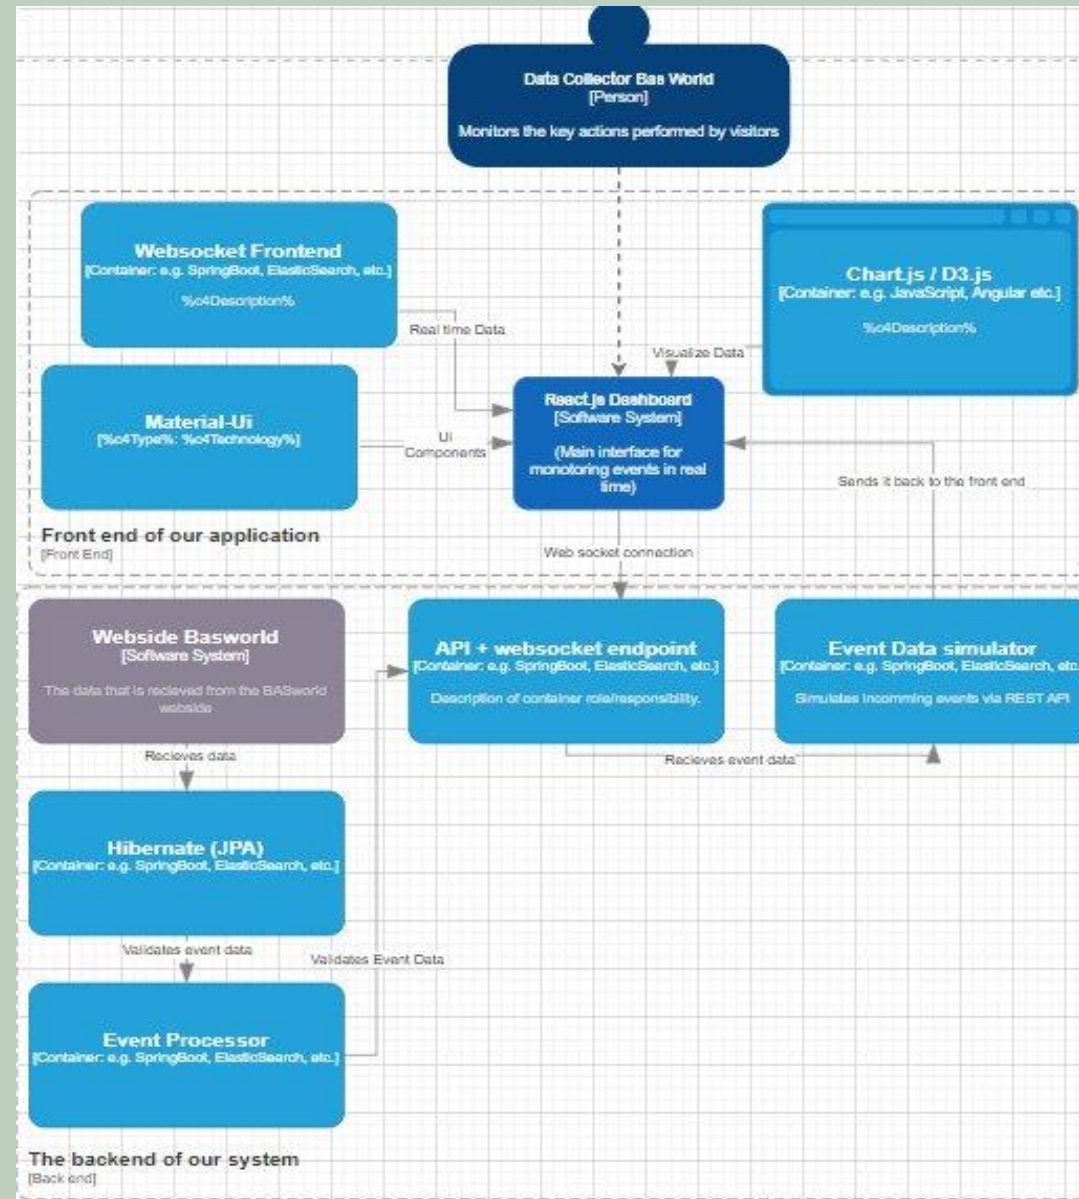

For the most part yes!

What we did:

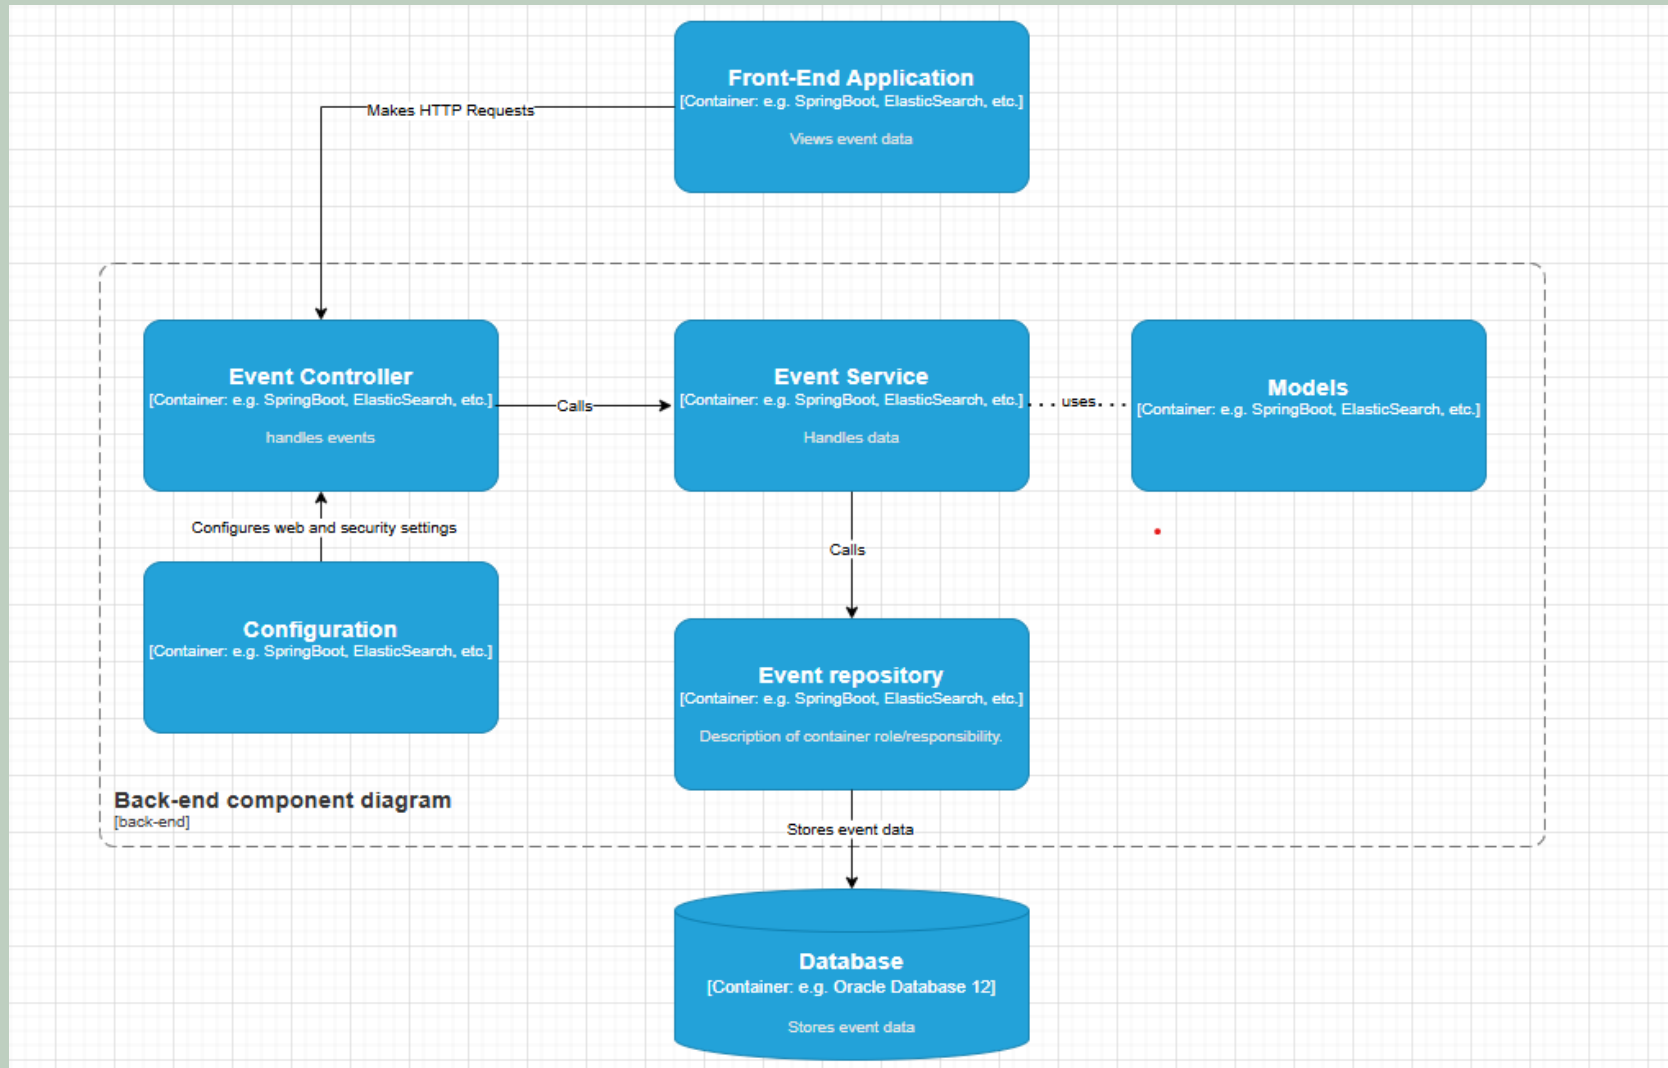

- Initial database setup
- Core API for event processing completed
- Sending aggregated data and displaying it on the website
- Documents version 2 sent to PO.

C4 MODELS

C4 MODELS

A close-up, artistic shot of a camera aperture. The aperture is partially open, revealing a bright, colorful light flare with streaks of green, blue, and yellow. The surrounding area is dark, creating a high-contrast effect.

DEMO

- Dashboard with aggregated data

WHAT ARE OUR NEXT STEPS

- Data validation and storage in database
- Real-time data simulation is integrated with the dashboard
- Full API functionality with filtering options
- Data is stored securely
